

# ALL ABOUT

PEPPERMINT OIL  
SUSTAINED RELEASE  
PELLETS AND  
CAPSULES

# **PEPPERMINT OIL CAPSULES**

**Our product is the only solution clinically shown to help manage a combination of occasional abdominal symptoms using patented Site-Specific Targeting (SST) technology which is designed to deliver ultra purified peppermint oil to where it is needed.**

**The peppermint oil is designed in tiny spheres with 3 layers coating. All three layers work together and are designed to release peppermint oil directly to the source of your system.**

**This gradual release allows a slow and gentle approach. The calming action of peppermint oil steadily travels through the gut to help manage occasional symptoms.**

**Our product is designed to minimize the potential for heartburn unlike single coating technology used in other standard products.**
